I just finished the game last night. This is one of the best old style D&D games I have played in a long time. Very good story and good graphics. they all set the mood for a fun romp in fantasy land. I will play this game again with different characters and try different approaches. I would recommend this game for anyone who likes dungeons, dragons, loot, or just plain fun.. On the Macintosh at least, the game is bugged ]"Application load error 5:0000064535"]. Based on the forum posts, neither steam support nor Her Interactive help.

I will update or remove this review if they ever fix the error.. Imagine Touhou with fewer lives and no idea what you're doing. I don't know if my "spells" are weak or I'm doing something wrong but I lose after one or two lives. Also the plot has something to do with Prussia (once a real empire in Europe) magic (mentioned in the intro) and space age warships (not mentioned but that's what I saw as the enemies). Maybe I just don't know what I'm doing but atleast touhou was easy to learn when I was new.. great game for the older generation who enjoyed close combat and panzer general loved the game .. Rawr RawRrr! Game RAWR! ROAR.... Snort. .... RRRRRRAAAAAAHHHHHHHHHHHHHHHHRRRRRRRRRR!. Really fun game, I ate so much my arms were hurting from picking up the plates 10V10

Check my video on it: <https://www.youtube.com/watch?v=8V3UgLG8NXs>. I liked it. great music and visuals. Good job, team!. I really enjoyed playing musynx things i wish you guys add in the future update

After reaching a high score now of >55,000 and >200 hrs on this game (and two roles higher than galacticorp executive) I thought I'd share what keeps me coming back.

This was my first "rogue-like" game where you are not told how to play and what the value of the items are that you find. **At first this was frustrating and I was struggling to survive missions but steadily I discovered weapons, combos and strats that worked.**

It is a very UNFORGIVING GAME so the learning curve is steep to get to the higher scores and if something goes wrong in combat or you judge the relative strengths of enemy fleets incorrectly, you only have a very small window of time to escape or your fleet will be wiped out. Once you engage you better hope you judged it right.

I love turn based 4X games (Xplore, Xpand, Xploit, Xterminate) and this game feels like a light and casual Xplore and Xterminate version of these games (there is no settling or empire building, just increasing fleet size and customisation).

I play it casually but may be sucked into an hour long game if things are going well and I feel a high score coming on. Since it is turn based, I have the luxury of taking my time to consider each move and weigh my strengths and weaknesses. It is still hard to judge the relative strength of more evenly matched battles and so I still get wiped out occasionally with much chagrin! The special missions that come up can seem over whelming and only recently did I beat the bugs 1 on 1 in a fair fight.

I now start with all the difficulty options on max and with a military mission base ship (I preferred scientific at the start to focus on the exploring). I find the Even Wierder Worlds mod the best extra content without making it easier (Esmarelda can take ANY item - cargo or equipped - and often a best gun!).

After >200 hrs it is really just the procedurally generated maps and trying to get the "perfect" game that keeps me going as well as mods to change things up. Random races and random personalities of the races you meet would improve replayability in the long term.. dads a god agme. Great game, worth the price!. NOTE: Got this as part of an Ubercrate subscription.

Surprisingly creepy 16bit survival horror, using the "slasher on a campground" premise. Awesome atmosphere, between the visuals/sound and the creepy and persistant enemy hunting you. Fetch questing was reasonable, and story was interesting enough to warrant the playthrough. Not long, but probably the right length for what it was. Recommend to stealth fans, horror fans, and retro fans.. Small clean rougelike with ephasis on fluent gamplay!
